## **Beware of New Shirts**

The increased cost of materials and scarcity of dyes are creating inferior shirts at \$1.00.

BEWARE.—This should be the thought linked with new \$1.00 shirts of this autumn-winter of 1916-17. Are materials skimped? Are the colors guaranteed? Are three lengths of sleeves associated with each neck size? Is a perfect fit assured, and will the price (\$1.00) be promptly given back on the return of any shirt not proving fully satisfactory? These are questions that should be asked and they will be answered in the affirmative here.
